1Introduction

1.1 Overview

PhonePe is a payment solution which facilitates payments and acts as such by creating, hosting, maintaining and providing Services to you via the Internet. PhonePe provides its Services to customers through 'PhonePe' mobile payments application ("PhonePe App"), which acts as a container for various payment instruments including but not limited to Wallet. Debit/Credit card, Unified Payment Interface (" UPI")and External Wallets (hereinafter collectively referred to as "Services"). PhonePe provides its Services to businesses by enabling them to accept payments and services from its customers for the products and/or services on their platform via PhonePe App.

1.2 Scope

PhonePe is based on the government-backed Unified Payment Interface (UPI) platform. What is UPI? UPI is built over the [IMPS](#) (Immediate Payment Service) infrastructure and allows you to transfer money between any two parties' bank accounts by using unique identifiers like mobile number or VPA (a unique payment address) without using account numbers or IFSC codes.

1.3 Acronyms and Abbreviations

- QMS - Quality Management System
- SLC - Software life cycle

2 Test Plan and Strategy

2.1 Unit Testing

2.2 Integration testing

2.3 Entry and Exit Criteria

2.4 Logging Tests and Reporting

2.5 System Testing

2.6 Regression testing

2.7 Test Report

3. Schedules for Testing

4 weeks

4. Entry and Exit Criteria

Phase	Entry Criteria	Exit Criteria
Functional Testing	Once the Test environment has been ready for QA team to start execution.	All functional test cases has been successfully pass.

5.Features to be tested

- Search
- Chats Updates
- Calls

6. Logging Tests and Reporting

- Logging the defect in the ExcelSheet.

7. Roles and Responsibilities

8.1 Project Manager: Creator of test plan & supervise project

8.2 Test Lead : Guide the Testing team ,and solve the issues if any

8.3 Test Engineer :Write and execute test cases

8. Deliverables

- test plan
- test cases documents
- test strategy
- test results
- test summary report
